

SAND-O-FLEX WHEELS

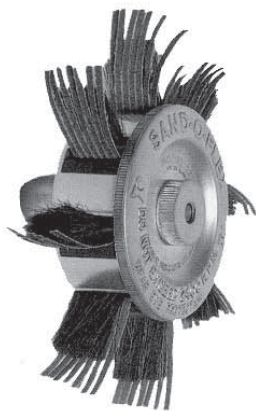

BRUSH-BACKED SANDER FOR FINISHING COMPLEX SURFACES

The brush-backed SAND-O-FLEX Wheel is the oldest, yet most versatile, abrasive manufactured by Merit. **COMPLEX SURFACES** or flat are finished equally well. Firm, cushioning bristles force the abrasive strips into, around and over corners, hollow and fluted surfaces, and small openings, **QUICKLY, EASILY LOADED**, Simply turning the index knob on the Sand-O-Flex feeds out new abrasive strips as needed. Changes in grit sizes as required in different steps of finishing can be done quickly in 2 to 3 minutes.

FITS STANDARD EQUIPMENT. With the use of Merit adapters, wheels will fit most electric hand drills, flexible shafts, drill presses, lathes or plain shafts of bench arbors or electric motors.

MODEL 350-R

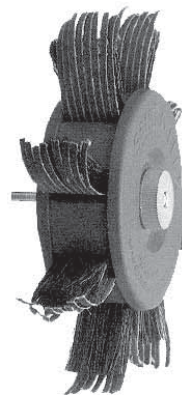

- Diameter 6" overall, metal body 3-3/4" diameter.
- 8 brushes, 1" wide abrasive strips and drill chuck adapter.
- Bore size 5/8", width reducer bushing for 1/2" shaft.
- Weight 1-3/4" lbs.
- Maximum operating speed 2400 RPM
- 1/4 to 1/2 HP motor required.

\$46.³⁹

MODEL 350-RP

- Diameter 6-1/2" overall, high impact plastic body 4" diameter.
- 8 brushes, 1" wide abrasive strips
- 1/4" diameter steel shank
- Some assembly required.
- Weight 9-1/2 oz.
- Maximum operating speed 2400 RPM
- Special adapter required for bench motor use. (11055)

ABRASIVE FLAP DISCS HIGH PERFORMANCE ZIRCONIA ALUMINA

Abrasive Flap Discs are suitable for a wide range of materials, including stainless steel. They have a long life and are easy to use due to their angled design which provides for more abrasive contact with the work piece.

ADVANTAGES:

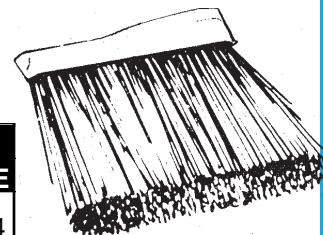

- Safe to use.
- Easy to control
- Quiet, with a low noise level
- Cooler grinding-no bluing
- No backing pad necessary
- Consistent finish throughout the life of the product
- Superior quality
- Long life
- Wide choices of styles
- 5/8" -11 hub available for quick, easy mounting and removal
- Competitive prices.
